

INSIGHT

AWIA water resilience compliance: Are you prepared?

SUMMARY

The American Water Infrastructure Act (AWIA) deadlines are fast approaching. To comply, all drinking water systems serving over 3,300 people are required to develop and/or update a Risk and Resilience Assessment (RRA) and Emergency Response Plan (ERP). This webinar will help community leaders understand the deadlines and provide guidance for developing a plan of action to meet the requirements of the EPA.

KEY TOPICS

- Requirements to comply with RRA and ERP
- Deadlines for completion and scheduled updates
- Available resources for next steps

ABOUT THE SPEAKER

Jim Ross, PE
Project Manager

After working eight years as a city engineer and public works director, Jim Ross now serves as Bartlett & West's go-to expert on utility projects. He brings a unique perspective from designer, contractor and utility director, and is always looking at the long-term impact to communities who must live with the final project.

RECORDING TIME: 35 minutes
